Paper

### **Tutor Bio:**

I came to know Christ as a young child of six and have since grown in the faith and knowledge of my Savior. I was blessed with wonderful parents who gave me the opportunity to be home schooled through high school, and I enjoyed my time as a Teenworks student. During the past three years, I have continued by education, completed my B.A. in English through Thomas Edison State College, and worked as a Teenworks & Webworks tutor and secretary. I heartily enjoy working with children of all ages and am privileged to be a part of the ministries of Teenworks & Webworks. I actively seek to share a Biblical perspective in each subject matter that I teach and endeavor to set a godly example for my students. This school year is going to be a fantastic year of study and I look forward getting to know you better.
