

Collegeworks student testimonials

I recently took the Collegeworks "Intro to Psychology." I wanted to start to get some college credits while I am still in high school, especially since psychology is so distorted in the secular colleges today. The material was very well presented, and although it took a fair amount of time to do the homework and preparation, I passed the CLEP with a score of 75 (80 is the highest score). I would definitely recommend this class - it was well worth my time and effort, and I gained 3 college credits!

~ L. Drum, Michigan

Collegeworks has been a major benefit for me this year and last year. After this year I will be able to put two years of college behind me and move forward with more advanced studies while in high school. As an added benefit, it also looks great on an application or resume. So if anyone is interested in Collegeworks I would definitely recommend it.

~ K. Maurer, Michigan

Collegeworks has been a tremendous blessing for me. Not only has it enabled me to accelerate my college education, It has also allowed me to pursue higher education without forcing me to compromise my worldview. Where both time and money are concerned, it has enabled me to be a better steward of what God has blessed me with. It has allowed me to begin to do many of those things which I feel called to do without being hindered by years of schooling or massive college debt. Essentially, the Collegeworks program has been a key tool in enabling me to go in the direction I feel called to.

~ K. Schmidt, Michigan – received English degree at age 19.
