

COLLEGEWORKS STUDY AND PLANNING OPTIONS:

If you feel lost in the maze of college planning and are wondering if distance education is for you, don't feel alone! It can be very bewildering and many don't know where to start. Perhaps you feel that you could study on your own and pass the exam, if you could get some advice and direction. Or maybe you would like a "guidance counselor" who will work with you and help you formulate a workable plan to obtain your college degree. Don't fret! If you are that student, we have helpful options for you.

1. **Available Soon! STUDY PACKETS:** Purchase a packet of study materials for any of the classes we offer, which includes study materials, a list of resources, sample tests and helpful hints for passing the test. We will be offering study packets as a download. Cost - \$35.00.
2. **COLLEGE PLANNING OPTIONS:** Either Mrs. Wanda Burdick or a member of her guidance team will discuss your goals, then put together a plan to guide you through the process of helping you to meet those goals, including choosing schools, which CLEPS will transfer, and which ones to take. The option you choose will depend on your needs.

Mrs. Wanda Burdick or a Collegeworks counselor will guide you through the process of obtaining your degree in a faster, more convenient, and less expensive way than traditional methods. After all, isn't that what CBE and Distance Learning is all about?

NOTE: We cannot enroll you in the degree-granting institution or make phone calls to the institution on your behalf. You will have to contact the institution and work with them directly. Our goal is to be your experienced guide through the "maze" by helping you define your goals and requirements and preparing you for your Clep exams. Please contact us if we can be of service!

COLLEGEWORKS ~ HELPING YOU TO MEET YOUR ACADEMIC GOALS FASTER AND AT A MUCH LOWER COST.
